TA Company

# Session Goals

In this session, you'll:

- Finalize and test projects
- Review final projects
- Record in-app experiences with Recorder
- Final Review of VR Topics

# Session outline

1. Project - Final Adjustments and Build
  - Challenge: Prepare your final build!
2. Using the Recorder to record in-Editor footage
  - Challenge: Record footage of your project using the Recorder
  - Final Review of VR Topics

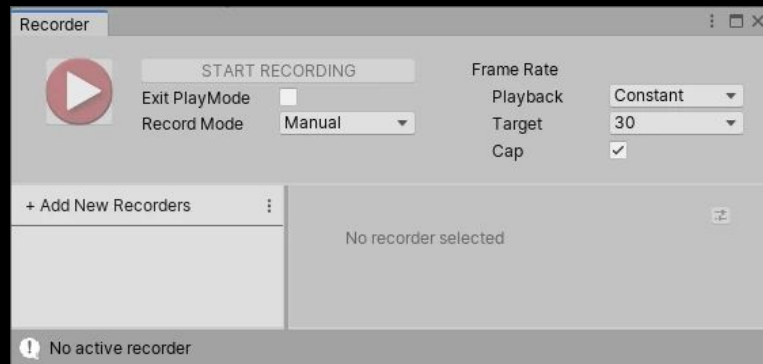

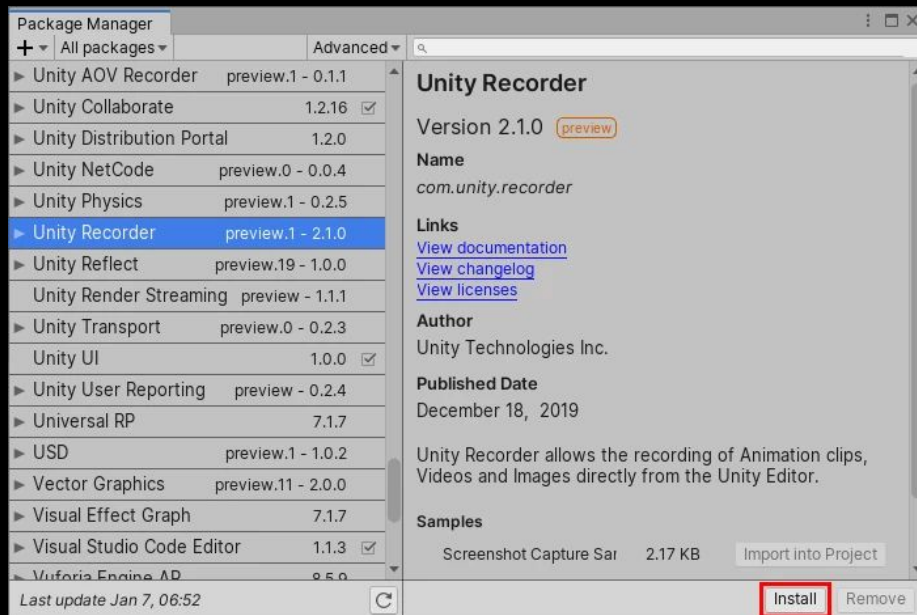

## Activity 10: Final Project Review

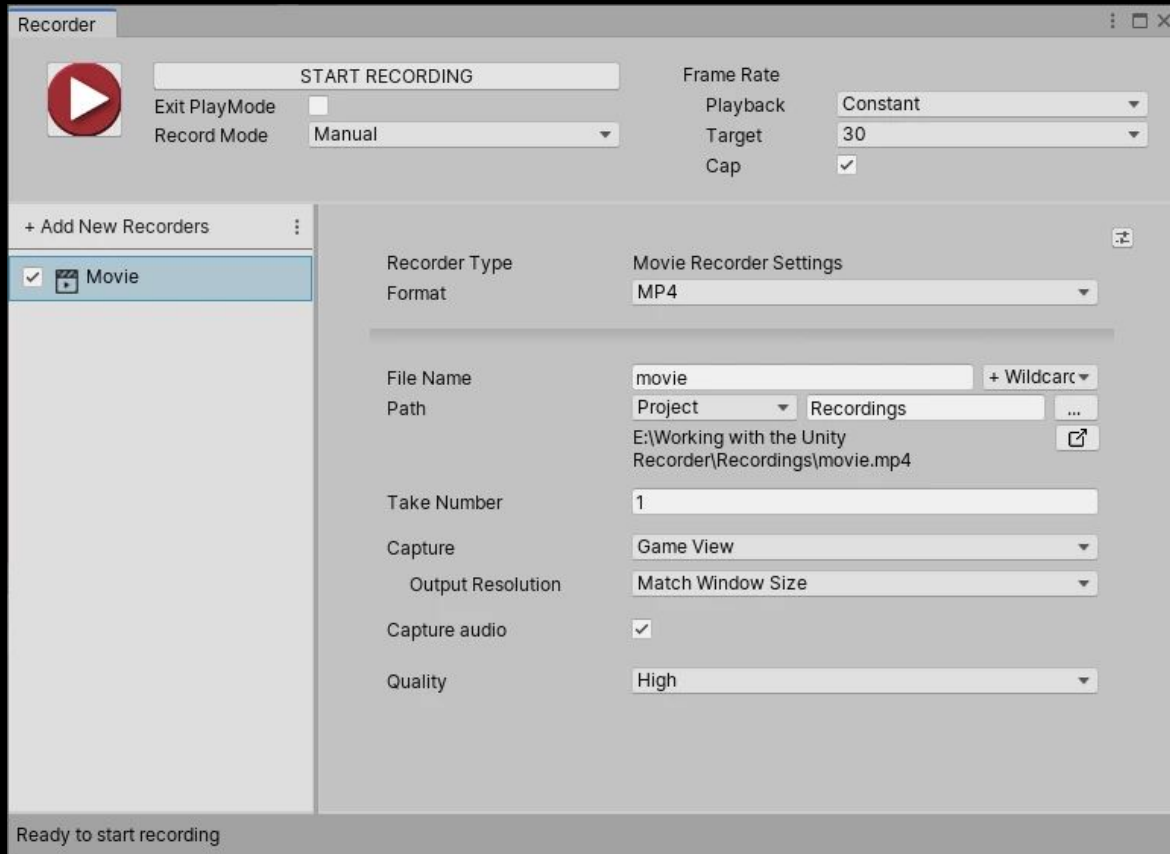

# Capstone Project - Making Final Adjustments

- Refer to your design document - are the features you planned implemented and functional?
- Playtest and fix any bugs.

# Using the Recorder to record in-Editor Footage

# Final Adjustments/Recordings

1. Take this time to debug, playtest, and make adjustments to your project. Please reach out to us for any questions!
  2. Using the built-in Recorder, record 2-3 30 second clips of the major features you highlighted in your design document in Play Mode. You will be using this for your presentation!
